 - a) in the case of an airline designated by Iceland:
 - (i) it is established in the territory of Iceland in accordance with the Agreement on the European Economic Area, and has a valid Operating

a) in the case of an airline designated by Iceland:

- (i) it is not established in the territory of Iceland under the Treaty on the functioning of the European Union or under the Agreement on the European Economic Area, or does not have a valid Operating Licence in accordance with European Union law or in accordance with national law adopted in accordance with the Agreement on the European Economic Area; or

1. While entering, within, or leaving the territory of one Party, its laws and regulations relating to the operation and navigation of aircraft shall be complied with by the other Party's airlines.

2. While entering, within, or leaving the territory of one Party, its laws and regulations relating to the admission to or departure from its territory of passengers, crew or cargo on aircraft (including regulations relating to entry, clearance, aviation security, immigration, passports, customs and quarantine or, in the case of mail, postal regulations) shall be complied with by, or on behalf of, such passengers, crew or cargo of the other Party's airlines.

①

②

3. Neither Party shall give preference to its own or any other airline over a designated airline of the other Party engaged in similar international air services in the application of its immigration, customs, quarantine and similar regulations.

4. Each designated airline of the contracting parties shall submit for approval its operational schedules to the aeronautical authorities of the other contracting party not more than 30 days before its operations begins.

5. Any change made outside of the designated airlines approved timetable shall be submitted to the other contracting party aeronautical authority's approval.

Article 6 *Recognition of Certificates*

1. Each Party shall recognize as valid, for the purpose of operating the air services provided for in this Agreement, certificates of airworthiness, certificates of competency, and licenses issued or validated by the State responsible for the regulatory control of a designated airline and still in force, provided that the requirements for such certificates or licenses at least equal the minimum standards that may be established pursuant to the Convention.

2. Each Party reserves the right, however, to refuse to recognize as valid, for the purpose of flight above or landing within its own territory, certificates of competency and licenses granted to or validated for its own nationals by the other Party.

Article 7 *Safety*

1. Either Party may request consultations concerning the safety standards maintained in respect of an airline designated by the other Party relating to aeronautical facilities, aircrews, aircraft, and operation of the designated airlines.

2. If, following such consultations, one Party finds that the other Party does not effectively maintain and administer safety standards in the areas referred to in paragraph 1 of this Article that meet the standards established at that time pursuant to the Convention, the other Party shall be informed of such findings and of the steps considered necessary to conform with the said standards. The other Party shall then take appropriate corrective action within an agreed time period.

3. Pursuant to Article 16 of the Convention, it is further agreed that any aircraft operated by, or on behalf of, an airline of one Party, on service to or from the territory of the other Party, may, while within the territory of the other Party, be the subject of a search by the authorized representatives of the other Party, provided this does not cause unreasonable delay in the operation of the aircraft. Notwithstanding the obligations mentioned in Article 33 of the Convention, the purpose of this search is to verify the validity of the relevant aircraft documentation, the licensing of its crew, and that the aircraft equipment and the condition of the aircraft conform to the standards established at that time pursuant to the Convention.

4. When urgent action is essential to ensure the safety of an airline operation, each Party reserves the right to immediately withhold, revoke or limit the operating authorization or technical permission of an airline or airlines of the other Party.

5. Any action by one Party in accordance with paragraph 4 of this Article shall be discontinued once the basis of the taking of that action ceases to exist.

6. With reference to paragraph 2 of this Article, if it is determined that one Party remains in non-compliance with the said standards when the agreed time period has lapsed, the Secretary-General of ICAO should be advised thereof. The latter should also be advised of the subsequent satisfactory resolution of the situation.

7. Where one Party has designated an airline whose regulatory control is exercised and maintained by a third State, the rights of the other Party under this Article shall apply equally in respect of the adoption, exercise or maintenance of safety standards by that third State and in respect of the operating authorization of that airline.

Article 8

Aviation Security

1. In accordance with their rights and obligations under international law, the Parties reaffirm that their obligation to each other to protect the security of civil aviation against acts of unlawful interference forms an integral part of this Agreement. Without limiting the generality of their rights and obligations under international law, the Parties shall in particular act in conformity with the provisions of the *Convention on Offences and Certain Other Acts Committed on Board Aircraft*, done at Tokyo on 14 September 1963, the *Convention for the Suppression of Unlawful Seizure of Aircraft*, done at The Hague on 16 December 1970, the *Convention for the Suppression of Unlawful Acts against the Safety of Civil Aviation*, done at Montreal on 23 September 1971, the *Protocol for the Suppression of Unlawful Acts of Violence at Airports Serving International Civil Aviation*, signed at Montreal on 24 February 1988, and the *Convention on the Marking of Plastic Explosives for the Purpose of Detection*, done at Montreal on 1 March 1991, and any other convention on civil aviation security to which both Parties become members.

2. Upon request the Parties shall provide each other with all necessary assistance to prevent acts of unlawful seizure of civil aircraft and other unlawful acts against the safety of such aircraft, of their passengers and crew, and of airports and air navigation facilities, and address any other threat to the security of civil air navigation.

3. The Parties shall, in their mutual relations, act in conformity with all aviation security standards and appropriate recommended practices established by the International Civil Aviation Organization and designated as Annexes to the Convention; they shall require that operators of aircraft of their registry, operators of aircraft who have their principal place of business or permanent residence in their territory and operators of airports in their territory act in conformity with such aviation security provisions.

4. Each Party agrees to observe the aviation security provisions required by the other Party for entry into, departure from, or while within, the territory of that other Party and to take adequate measures to protect aircraft and to inspect passengers, crew, and their baggage and carry-on items, as well as cargo and aircraft stores, prior to and during boarding or loading. Each Party shall also give positive consideration to any request from the other Party for special security measures to meet a particular threat.

5. When an incident or threat of an incident of unlawful seizure of aircraft or other unlawful acts against the safety of passengers, crew, aircraft, airports or air navigation facilities occurs, the Parties shall assist each other by facilitating communications and other appropriate measures intended to terminate rapidly and safely such incident or threat.

6. When a Party has reasonable grounds to believe that the other Party has departed from the aviation security provisions of this Article, the aeronautical authorities of that Party may request immediate consultations with the aeronautical authorities of the other Party. Failure to reach a satisfactory agreement within fifteen (15) days from the date of such request shall constitute grounds to withhold, revoke, limit, or impose conditions on the operating authorization and technical permissions of an airline or airlines of that other Party. When required by an emergency, a Party may take interim action prior to the expiry of fifteen (15) days.

Article 9

Commercial Opportunities

1. The airlines of each Party shall have the right to establish offices in the territory of the other Party for the promotion and sale of air services.

2. The designated airlines of each Party shall be entitled, in accordance with the laws and regulations of the other Party relating to entry, residence and employment, to bring in and maintain in the territory of the other Party managerial, sales, technical, operational and other specialist staff required for the provision of air services.

3. Each designated airline shall have the right to perform its own ground-handling in the territory of the other Party ("self-handling") or, at its option, select among competing agents for such services in whole or in part. The rights shall be subject only to physical constraints resulting from considerations of airport safety. Where such considerations preclude self-handling, ground services shall be available on an equal basis to all airlines; charges shall be based on the costs of services provided; and such services shall be comparable to the kind and quality of services which would be available if self-handling were possible.

4. Any airline of each Party may engage in the sale of air services in the territory of the other Party directly and, at the airline's discretion, through its agents, except as may be specifically provided by the charter regulations of the country in which the charter originates that relate to the protection of passenger funds, passenger cancellation and refund rights. Each airline shall have the right to sell such transportation, and any person shall be free to purchase such transportation, in the currency of that territory or in freely convertible currencies.

5. Each airline shall have the right to convert and remit to its country, on demand, local revenues in excess of sums locally disbursed. Conversion and remittance shall be permitted promptly without restrictions or taxation in respect thereof at the rate of exchange applicable to current transactions and remittance on the date the carrier makes the initial application for remittance.

6. The airlines of each Party shall be permitted to pay for local expenses, including purchases of fuel, in the territory of the other Party in local currency. At their discretion, the airlines of each Party may pay for such expenses in the territory of the other Party in freely convertible currencies according to local currency regulation.

7. In operating or holding out the authorized services on the agreed routes, any designated airline of one Party may enter into co-operative marketing arrangements such as blocked-space, code-sharing or leasing arrangements, with

a) an airline or airlines of either Party; and

b) an airline or airlines of a third country,

provided that such a third country authorizes or allows comparable arrangements between the airlines of the other Party and other airlines on services to, from and via such a third country; provided that all airlines in such arrangements 1) hold the appropriate authority and 2) meet the requirements normally applied to such arrangements.

Article 10

Customs Duties and Charges

1. Each Party shall on the basis of reciprocity exempt a designated airline of the other Party to the fullest extent possible under its national law from customs duties, excise taxes, inspection fees and other national duties and charges on aircraft, fuel, lubricating oils, consumable technical supplies, spare parts including engines, regular aircraft equipment, aircraft stores (including but not limited to such items of food, beverages and liquor, tobacco and other products destined for sale or to be used solely in connection with the operation or servicing of aircraft) and other items, such as printed ticket stock, airway bills, any printed material which bears the insignia of the company printed thereon and usual publicity material distributed free of charge by that designated airline intended for use or used solely in connection with the operation or servicing of aircraft of the designated airline of such other Party operating the agreed services.

2. The exemptions granted by this Article shall apply to the items referred to in paragraph 1:

a) introduced into the territory of the Party by or on behalf of the designated airline of the other Party;

b) retained on board aircraft of the designated airline of one Party upon arrival in or leaving the territory of the other Party; or

c) taken on board aircraft of the designated airline of one Party in the territory of the other Party and intended for use in operating the agreed services;

whether or not such items are used or consumed wholly within the territory of the Party granting the exemption, provided the ownership of such items is not transferred in the territory of the said Party.

3. The regular airborne equipment, as well as the materials and supplies normally retained on board the aircraft of the designated airline of either Party, may be unloaded in the territory of the other Party only with the approval of the customs authorities of that territory. In such case, they may be placed under supervision of the said authorities up to such time as they are re-exported or otherwise disposed of in accordance with customs regulations.

4. The exemptions provided for by this Article shall also apply in situations where a designated airline of one Party has entered into arrangements with other airlines for the loan or transfer in the territory of the other Party of the items specified in paragraphs 1 and 2 of this Article, provided such other airlines similarly enjoy such exemptions from the other Party.

5. Nothing in this Agreement shall prevent either Party from imposing, on a non-discriminatory basis, taxes, levies, duties, fees or charges on fuel supplied in its territory for use in an aircraft of a designated air carrier of the other Party that operates between a point or points in the territory of the first Party and another point in the territory of that Party or a point in the territory of another European Union Member State, EEA EFTA State or a member state of the Yamoussoukro Agreement.

Article 11 *User Charges*

1. User charges that may be imposed by the competent charging authorities or bodies of each Party on the airlines of the other Party shall be just, reasonable, not unjustly discriminatory, and equitably apportioned among categories of users. In any event, any such user charges shall be assessed on the airlines of the other Party on terms not less favourable than the most favourable terms available to any other airline at the time the charges are assessed.

2. User charges imposed on the airlines of the other Party may reflect, but shall not exceed, the full cost to the competent charging authorities or bodies of providing the appropriate airport, airport environmental, air navigation and aviation security facilities and services at the airport or within the airport system. Such full cost may include a reasonable return on assets, after depreciation. Facilities and services for which charges are made shall be provided on an efficient and economic basis.

3. Each Party shall encourage consultations between the competent charging authorities or bodies in its territory and the airlines using the services and facilities, and shall encourage the competent charging authorities or bodies and the airlines to exchange such information as may be necessary to permit an accurate review of the reasonableness of the charges in accordance with the principles of paragraphs 1 and 2 of this Article. Each Party shall encourage the competent charging authorities to provide users with reasonable notice of any proposal for changes in user charges to enable users to express their views before changes are made.

4. Neither party shall be held, in dispute resolution procedures pursuant to Article 16 of this Agreement, to be in breach of a provision of this Article, unless a) it fails to undertake a review of the charge or practice that is the subject of complaint by the other Party within a reasonable amount of time; or b) following such a review it fails to take all steps within its power to remedy any charge or practice that is inconsistent with this Article.

[Article 12

Avoidance of Double Taxation

1. Profits from the operation of the aircraft of a designated airline in international traffic shall be taxable only in the territory of the Party in which the place of effective management of that airline is situated.

2. Capital represented by aircraft operated in international traffic by a designated airline and by movable property pertaining to the operation of such aircraft shall be taxable only in the territory of the Party in which the place of effective management of the airline is situated.

3. When a special agreement for the avoidance of double taxation with respect to taxes on income and on capital exists between any two of the Parties, the provisions of the latter shall prevail.]

Article 13

Fair Competition

1. Each Party shall allow a fair and equal opportunity for the designated airlines of both Parties to compete in providing the international air services governed by this Agreement.

2. Each Party shall allow each designated airline to determine the frequency and capacity of the international air services it offers based upon commercial considerations in the marketplace. Consistent with this right, neither Party shall unilaterally limit the volume of traffic, frequency or regularity of service, or the aircraft type or types operated by the designated airlines of the other Party, except as may be required for customs, technical, operational, or environmental reasons under uniform conditions consistent with Article 15 of the Convention.

3. Neither Party shall impose on the other Party's designated airlines a first-refusal requirement, uplift ratio, no-objection fee, or any other requirement with respect to capacity, frequency or traffic that would be inconsistent with the purposes of this Agreement.

4. Neither Party shall require the filing of schedules, programs for charter flights, or operational plans by airlines of the other Party for approval, except as may be required on a non-discriminatory basis to enforce the uniform conditions foreseen by paragraph 2 of this Article or as may be specifically authorized in an Annex to this

Agreement. If a Party requires filings for information purposes, it shall minimize the administrative burdens of filing requirements and procedures on air services' intermediaries and on designated airlines of the other Party.

Article 14

Tariffs

1. Each Party shall allow prices for air services to be decided by each designated airline based on commercial considerations in the marketplace. Intervention by the Parties shall be limited to:

- a) prevention of unreasonably discriminatory prices or practices;
- b) protection of consumers from prices that are unreasonably high or restrictive due to the abuse of a dominant position; and
- c) protection of airlines from prices that are artificially low due to direct or indirect governmental subsidy or support.

2. Each Party may require notification or filing with its aeronautical authorities of prices to be charged to or from its territory by airlines of the other Party. Notification or filing by the airlines of both Parties may be required no more than thirty (30) days before the proposed date of effectiveness. In individual cases, notification or filing may be permitted on shorter notice than normally required. Neither Party shall require the notification or filing by airlines of the other Party of prices charged by charterers to the public, except as may be required on a non-discriminatory basis for information purposes.

3. Notwithstanding paragraphs 1 and 2 of this Article, the prices to be charged by the designated airline of the Republic of Liberia for carriage wholly within the European Economic Area shall be subject to the Agreement on the European Economic Area. However, each designated airline has the right to match any price offered in the marketplace.

Article 15

Intermodal Services

Notwithstanding any other provision of this Agreement, airlines and indirect providers of cargo transportation of both Parties shall be permitted, without restriction, to employ in connection with international air services any surface transportation for cargo to or from any points in the territories of the Parties or in third countries, including transport to and from all airports with customs facilities, and including, where applicable, the right to transport cargo in bond under applicable laws and regulations. Such cargo, whether moving by surface or by air, shall have access to airport customs processing and facilities. Airlines may elect to perform their own surface transportation or to provide it through arrangements with other surface carriers, including surface transportation operated by other airlines and indirect providers of cargo air services. Such intermodal cargo services may be offered at a single, through price for the air and surface transportation combined, provided that shippers are not misled as to the facts concerning such transportation.

Article 16
Consultations and Settlement of Disputes

1. In a spirit of close co-operation, either Party may, at any time, request consultations relating to this Agreement, its implementation and satisfactory compliance with the provisions of this Agreement. If any dispute arises between the Parties relating to the interpretation or application of this Agreement, the Parties shall in the first place endeavour to settle it by consultation.

2. Any dispute which cannot be resolved by consultation may at the request of either Party of this Agreement be submitted to a mediator or a dispute settlement panel. Such a mediator or panel may be used for mediation, determination of the substance of the dispute or to recommend a remedy or resolution of the dispute.

3. The Parties shall agree in advance on the terms of reference of the mediator or of the panel, the guiding principles or criteria and the terms of access to the mediator or the panel. They shall also consider, if necessary, providing for an interim relief and the possibility for the participation of any third Party that may be directly affected by the dispute, bearing in mind the objective and need for a simple, responsive and expeditious process.

4. A mediator or the members of a panel may be appointed from a roster of suitably qualified aviation experts maintained by the International Civil Aviation Organization (ICAO). The selection of the expert or experts shall be completed within fifteen (15) days of receipt of the request for submission to a mediator or to a panel. If the Parties fail to agree on the selection of an expert or experts, the selection may be referred to the President of the Council of the International Civil Aviation Organization. Any expert used for this mechanism should be adequately qualified in the general subject of the dispute.

5. A mediation should be completed within sixty (60) days of engagement of the mediator or the panel and any determination, including, if applicable, any recommendation, should be rendered within sixty (60) days of engagement of the mediator or the panel. The Parties may agree in advance that the mediator or the panel may grant interim relief to the complainant, if requested, in which case a determination shall be made initially.

6. The Parties shall co-operate in good faith to advance the mediation and to implement the decision or determination of the mediator or the panel, unless they otherwise agree in advance to be bound by the decision or determination. If the Parties agree in advance to request only a determination of the facts, they shall use those facts for resolution of the dispute.

7. The costs of this mechanism shall be estimated upon initiation and apportioned equally, but with the possibility of re-apportionment under the final decision.

8. The mechanism is without prejudice to the continuing use of the consultation process, the subsequent use of arbitration, or termination under Article 18.

Article 17
Amendments

1. If either Party considers it desirable to amend any provision of this Agreement, including the Annexes thereto, it may request consultations between the aeronautical authorities of both Parties in relation to the proposed amendment. Such consultations shall commence within a period of sixty days (60) from the date of receipt of the request. Any amendments so agreed shall enter into force when they have been confirmed by an exchange of diplomatic notes by both Parties.

2. An amendment to the Annexes may be made by direct agreement between the aeronautical authorities of both Parties and shall enter into force when it has been confirmed by an exchange of diplomatic notes.

Article 18
Termination

Either Party may, at any time, give notice in writing to the other Party of its decision to terminate this Agreement. Such notice shall be sent simultaneously to the International Civil Aviation Organization.
